

## **Community Service Prayer**

Lord,

Thank you for the great gifts of this world, especially for the great gifts of each other. And as we grow in the community, through our love for one another, give us the strength to accept the challenge of service. Help us to realize the needs of Your children and deepen our commitment to meet those needs. Never let us become preoccupied with our human accomplishments, but teach us to know that all things come from You.

Amen.
